

# LONDON'S TRANSPORT

## \* BUS NEWS – Week 13/01/18 \*

BUS NEWS is published in good faith and from available information. Last minute changes sometimes occur, especially when external factors have an influence.

### Battersea residents demand return of vanishing route 170 buses

Press Release published: Tuesday 9th January 18

Battersea residents are up in arms at transport bosses at Transport for London after buses on route 170 were partly withdrawn in Lombard Road, Vicarage Crescent and Battersea Church Road just before Christmas without telling anyone.

It subsequently emerged that TfL had replaced the old single decker buses on this route with new models that are deemed too big to fit underneath the railway bridge in Lombard Road.

The council has now got involved to try and help Transport for London find an urgent solution to the problem in a bid to get the buses back on the road.

The Council accuse Transport for London for a farcical situation that has been exacerbated by TfL's reluctance to come clean and admit they made a mistake. The Council state that it seems that nobody bothered to double check if their new fleet of buses would actually fit underneath the bridge. Instead of telling anyone Transport for London simply withdrew route 170 towards Roehampton and re-routed it via Battersea Bridge Road, Prince of Wales Drive, Albert Bridge Road, Battersea Park Road and York Road.

The Council claim that Transport for London suggested that the bridge must have been lowered. The Council state that the bridge has not changed since the Victorians built it. The Council are disappointed that Transport for London did not reinstate the old buses until they could work something out. The Council engineers will be working with TfL to try and find a solution so that the buses can be re-instated.

*[The bridge has two arches. The height clearance in one direction is 10'9" (3.2m) and in the other direction is 10'0" (3.0m). The sign in the picture shows that the bridge height has been changed at some stage in the past to what is now 10'0" (3.0m), but this was done before the new StreetLite buses were introduced on route 170. : Ed:]*

**Service Changes – 13/01/18**  
(excluding road-works & diversions)

**Route 20 (Debden-Loughton-Woodford-Leyton-Walthamstow) [London General - NP]:**

Temporary timetable withdrawn following completion of cycling works in Leyton. PVR restored to 10.

**Route 141 (Palmers Green-Harringay-Newington Green-Moorgate-London Bridge)**

**[Arriva London - AD & WN]:**

Contract retained by Arriva London with existing fleet hybrid double deckers.

No change to the timetable. PVR=26 (no change).

**Route 329 (Enfield Town-Winchmore Hill-Palmers Green-Wood Green-Turnpike Lane)**

**[Arriva London - AD]:**

Contract retained by Arriva London with existing fleet double deckers. New timetable to improve reliability following changes to road layouts along the route, with Monday to Saturday daytime service reduced from every 6-7 minutes to every 7-8 minutes, with one additional Monday to Friday morning peak journey towards Turnpike Lane Station and return in the evening peak. PVR=16 (no change).

**Route 357 (Chingford Hatch-Chingford Mount-Walthamstow-Leyton-Whipps Cross)**

**[London General - NP]:**

Temporary timetable withdrawn following completion of cycling works in Leyton. PVR restored to 10.

**Route 635 (Sunbury-Feltham-Hounslow) [London United - HH]:**

Contract retained by London United with existing fleet double deckers.

No change to the timetable. PVR=3 (no change).

**Route N87 (Kingston-New Malden-Wimbledon-Wandsworth-Vauxhall-Trafalgar Square-Aldwych)**

**[London General - SW]:**

Weekend night service reduced from every 10 to every 15 minutes. PVR-5 to 11?

**New diversions due to commence on: 15/01/18**  
(Note that plans & times may be subject to change)

**Route 103 - [Arriva London - GY]:** Owing to road works in Havering Road, temporarily diverted in both directions via Gobions Avenue (towards Rainham), Chase Cross Road, Collier Road Lane and Havering Road.
